This is a brief, accessible introduction to the thought of the philosopher John Buridan. Klima argues that many of Buridan's academic concerns are strikingly similar to those of modern philosophy and his work sometimes quite directly addresses modern philosophical questions.

»Die Bücherdiebin« ist ein modernern Klassiker und Weltbestseller und wurde 2014 erfolgreich verfilmt. Molching bei München. Hans und Rosa Hubermann nehmen die kleine Liesel Meminger bei sich auf – für eine bescheidene Beihilfe, die ihnen die ersten Kriegsjahre kaum erträglicher macht. Für Liesel jedoch bricht eine Zeit voller Hoffnung, voll schieren Glücks an – in dem Augenblick, als sie zu stehlen beginnt. Anfangs ist es nur ein Buch, das im Schnee liegen geblieben ist. Dann eines, das sie aus dem Feuer rettet. Dann Äpfel, Kartoffeln und Zwiebeln. Das Herz von Rudi. Die Herzen von Hans und Rosa Hubermann. Das Herz von Max. Und das des Todes. Denn selbst der Tod hat ein Herz. Eine unvergessliche Geschichte vom dunkelsten und doch brillantesten aller Erzähler: dem Tod. Tragisch und witzige, zugleich wütend und zutiefst lebensbejahend – ein Meisterwerk.

Education in Ukraine is marked by integrity violations from early childhood education and care through postgraduate study. In the past decade policy makers and civic organisations have made progress in addressing these challenges. However, much remains to be done.

In 1990, New City Press, in conjunction with the Augustinian Heritage Institute, began the project known as: *The Works of Saint Augustine, A Translation for the 21st Century*. The plan is to translate and publish all 132 works of Saint Augustine, his entire corpus into modern English. This represents the first time in which *The Works of Saint Augustine* will all be translated into English. Many existing translations were often archaic or faulty, and the scholarship was outdated. New City Press is proud to offer the best modern translations available. *The Works of Saint Augustine, A Translation for the 21st Century* will be translated into 49 published books. To date, 41 books have been published by NCP containing 93 of *The Works of Saint Augustine, A Translation for the 21st Century*. Augustine's writings are useful to anyone interested in patristics, church history, theology and Western civilization. -- Publisher.

In recent years interest in the thought of Kierkegaard has grown dramatically, and with it the body of secondary literature has expanded so quickly that it has become impossible for even the most conscientious scholar to keep pace. The problem of the explosion of secondary literature is made more acute by the fact that much of what is written about Kierkegaard appears in languages that most Kierkegaard scholars do not know.

Kierkegaard has become a global phenomenon, and new research traditions have emerged in different languages, countries and regions. The present volume is dedicated to trying to help to resolve these two problems

in Kierkegaard studies. Its purpose is, first, to provide book reviews of some of the leading monographic studies in the Kierkegaard secondary literature so as to assist the community of scholars to become familiar with the works that they have not read for themselves. The aim is thus to offer students and scholars of Kierkegaard a comprehensive survey of works that have played a more or less significant role in the research. Second, the present volume also tries to make accessible many works in the Kierkegaard secondary literature that are written in different languages and thus to give a glimpse into various and lesser-known research traditions. The six tomes of the present volume present reviews of works written in Catalan, Chinese, Czech, Danish, Dutch, English, Finnish, French, Galician, German, Greek, Hebrew, Hungarian, Italian, Japanese, Norwegian, Polish, Portuguese, Romanian, Russian, Slovak, Spanish, and Swedish.

Soon after their first meeting in 1908, Freud's future biographer, Ernest Jones, initiated a correspondence with the founder of psychoanalysis that would continue until Freud's death in London in 1939. Jones, a Welsh-born neurologist, would become a principal player in the development of psychoanalysis in England and the United States. This volume makes available from British and American archives nearly seven hundred previously unpublished letters, postcards, and telegrams, the vast majority of the three-decade correspondence between Freud and his admiring younger colleague. These letters and notes, dashed off almost compulsively in the odd moments of busy professional lives in Toronto, Vienna,

and London, in transit between meetings, or on holidays on the Continent, provide a lively account of the early years of the psychoanalytic movement and its fortunes during the turbulent interwar period. The reader is invited to share in the domestic and international news of the day, to make the acquaintance of the prominent personalities among the first generation of Freud's followers, and to witness the drama of complex rivalries and conflicting loyalties - including the personal and intellectual rupture between Freud and Jung, and Jones's unrelenting effort to maneuver politically "behind the scenes" in order to position himself within Freud's inner circle. Present in the correspondence also are the women who in differing ways touched the lives of both men and influenced their work - Loe Kann, Joan Riviere, Melanie Klein, and Anna Freud. While charting the progress of a personal friendship, this correspondence offers glimpses of the darker events of the time - the last days of the Austro-Hungarian Empire, the First World War, the Russian Revolution, and the rise of Nazism in Europe. Even though on a professional level the two correspondents differed on a striking array of issues - such as the theory of anxiety, the death and aggressive instincts, child analysis, female sexuality, and lay analysis - their letters are an affirmation of the intellectual and emotional bonds between these two very different men, who, as Jones put it so poignantly in his last letter to Freud, had "both made a contribution to human existence - even if in very different measure".

into the local struggles facing disadvantaged schools and a compelling account of the injustice of their place in the bigger picture.' - Professor Geoff Whitty, Director, Institute of Education, University of London

Schools in disadvantaged areas are struggling in the current economic and political environment. Like schools everywhere they are being asked to do more with less, but they face more obstacles. In recent years education policy has shifted from a holistic approach to learning to a focus on narrow educational outcomes: spelling, reading and writing. Thomson shows that this approach penalises disadvantaged schools and argues that educational and social disadvantage are inextricably linked in children's everyday lives. Examining primary and secondary schools in disadvantaged areas in a post-industrial ('rustbelt') city, *Schooling the Rustbelt Kids* reopens the debate about inequality in schooling. It provides concrete evidence that typical government policies in the Western world are not working, and that they are helping to create a permanent underclass. Thomson outlines an alternative whole of government approach to policy, which builds on those school programs that do make a real difference to educational outcomes. Thomson also emphasises the influence of local geography. Schools are coloured by particular neighbourhoods, permeated by national and global events, and tangled in complex networks of social relations.

This series is designed for those who know biblical languages. It is written primarily for the pastor and Bible teacher, not for the scholar. That is, the aim is not to review and offer a critique of every possible interpretation that has ever been given to a passage, but to exegete each passage of Scripture succinctly in its grammatical and historical context. Each passage is interpreted in the light of its biblical setting, with a view to grammatical detail, literary context, flow of biblical argument, and historical setting. While the focus will not be on application, it is expected that the authors will offer suggestions as to the direction in which application can flow.

In einer scheinbar perfekten Welt, in der wahre Gefühle ebenso eliminiert sind wie Krieg, Schmerz und Leiden, ist einzig Jonas dazu auserkoren, echte Liebe und tiefe Emotionen kennenzulernen - als Hüter der Erinnerung. Als Jonas erfährt, wie hoch der Preis ist, den die Gemeinschaft für die vermeintliche Harmonie zahlt, wagt er den Widerstand gegen deren eherne Gesetze.

As British prime minister from 1945 to 1951, Clement Attlee built a legacy that includes today's famous—and controversial—National Health Service, yet he is often remembered as a rather dull political figure. Rejecting Winston Churchill's jibe that Attlee was a "modest little man with plenty to be modest about," this biography makes the case that his reputation as Britain's greatest reforming prime minister is fully deserved. Building on his earlier work on Attlee and including new research and stories, many of which are published here for the first time, Francis Beckett highlights Attlee's relevance for a new generation. A poet and dreamer, Attlee led a remarkable political life that saw, among other challenges, the beginning of the Cold War. Ultimately, this perceptive biography demonstrates that Attlee's ideas have never been more relevant.

For courses in Secondary English Methods. This text offers a comprehensive and up-to-date view of teaching secondary English based on sound research and classroom practice. The third edition reaffirms the value of a holistic, integrated approach to teaching English language arts. While separating the language arts into separate chapters, the strands are reconnected in every chapter. A separate chapter is devoted to grammar, giving this component focused attention. Materials and instructional strategies for students with increased diversity and needs are offered in greater detail. Problem-solving skills and reflective applications, integrated into chapters as simulations, are included to heighten the reflective skills of novice and experienced teachers. Conditionality has long been used by the IMF, and more recently by World Bank and bilateral donors, as an instrument for improving the effectiveness of international finance. This collection of essays, by representatives of donors and recipients as well as independent observers, suggests that because of recipients' increased bargaining power, such an improvement has seldom resulted.

Cracks are becoming visible in American work habits. Whole subpopulations now have weak attachments to self-supporting labor. This worsens poverty and

economic mobility. It also damages well-being in subtler ways—because work plays a vital role in building social connections, and boosting self-respect and happiness. Any sensible effort to improve American prosperity today must begin by bolstering work. Alas, government agencies have a very checkered history when it comes to helping those who have struggled in the workforce develop the capacities to do better in the future.

Statistically, most government job-training programs are quite unimpressive. There are, however, many charitable programs that have demonstrated real success at leading unskilled persons, single mothers, inexperienced minorities, released prisoners, former addicts, and other at-risk populations into lasting, transformative employment. This book was written to help donors find those successful models and strategies. Because when it comes to curing deprivation, softening inequality, improving life satisfaction, and strengthening society, work works.

This new edition of "Managing the Secondary School" updates the consideration of the talks and skills of the headteacher which was a feature of the first edition. The book deals with all aspects of the headteachers' role including marketing the school and managing the budget. It also deals in some detail with the problems of managing change and with the role of governors and parents in today's schools. Throughout the book, Joan Dean considers the implications of the Education Reform Act and the National Curriculum.

Evangelical Christians have a long and influential history in the United States. In recent decades modern culture

has penetrated the evangelical community causing it to stray far from its roots. Letters to Laodicea: A Call to Repentance for Evangelical America grew out of an Internet dialogue between author John E. Hartman and his son concerning the deep decline in evangelical churches in America and the collapse of Western culture generally. Hartman's work opens the eyes of many who do not realize what is happening to the evangelical community. Learn some of the reasons we are losing our message and the spiritual vitality central to spiritual maturity. Discover how evangelicals are committing spiritual adultery in their deepening love affair with the world. Many have exchanged the gospel for therapy and a compromised message with little authority, life, and power. However, there is a way out of the ongoing collapse in a lifestyle of repentance and a return to basic spiritual and life disciplines. The possibility of presenting the gospel witness to a culture dying from within and facing enormous problems it cannot resolve hangs in part on what happens to the American evangelical community. Letters to Laodicea: A Call to Repentance for Evangelical America opens the door to a new level of Christian spirituality and ministry opportunity for those willing to meet the challenge to look deeper and make radical spiritual change in a time of turmoil, mixed with the potential for good.
