Having a good sex life is important in any relationship. Unfortunately, few couples experience sexual ecstasy every time they make love. The thing is that having intense sexual experiences is one of the greatest sources of pleasure in any relationship. You cannot just go on and say that you do not need sexual ecstasy in your relationship unless you are up for a dysfunctional relationship. While sex is considered as the greatest source of pleasure, there are still those who regard sex as something to be avoided. It is our fascination and fear of it that we both crave and avoid it at the same time. This means that we long to be touched but we fear that we might express our vulnerabilities with our partner. This is the reason why many men and women fear sex, and even if they long for it, they go to great lengths to avoid it. Understanding Sex and Human Culture Sex is the most natural experience between a man and a woman. However, many people have negative attitudes towards sex. So why do people avoid sex? There

Where To Download Tantric Sex For Men Making Love A Meditation By Richardson Diana Richardson Michael 2010 Paperback

are many reasons why people avoid sex. For men, it is usually their egos that prevent them from enjoying it. The thing is that men's concerns towards sex stem from their physical nature, and these include having a soft erection, low intensity, premature ejaculation, poor sexual performance, and low self-confidence. On the other hand, women avoid sex not mainly because of their physical nature but mostly because of psychological reasons and clashing ideologies. Most women do not enjoy sex because they have lost sexual sensations, have experienced childbirth, or experience mild orgasms and painful intercourse. But more than the physical limitations, women also fear sex because of guilt, shame, and their inhibitions. In most cases, the psychological reasons why women fear sex are their beliefs and religions. Apparently, there are many beliefs that inhibit women from making sexual advances and enjoying sex, because these acts are regarded as sinful. Understanding Tantric Sex Tantra challenges the common beliefs regarding sexuality as something that prevents people from discovering the path to enlightenment. It purports that sexuality is the doorway to being divine, and that earthly pleasures including sex are sacred acts. Tantra means to "show, manifest or expand" and in this context, sex is seen as the expansion of the consciousness and the weaving of the male and female polarities to create harmony. Also called Neotantra, trantic sex is a modern and western variation of tantra which stemmed from spiritual beliefs. Trantic sex includes the new age and modern interpretations of both Buddhist and Indian tantra. The practice of tantra teaches how to reclaim sexual intimacy. It is an ancient art that flourished more than 6,000 years ago. Through this ancient art, couples can discover new things about their sexuality so they can enjoy sexual bliss without the fear of inhibition. Tantric sex is not only about accepting sexuality as something sacred, but it also

Where To Download Tantric Sex For Men Making Love A Meditation By Richardson Diana Richardson Michael 2010 Paperback

teaches couples how to prolong their lovemaking so that they can use their orgasmic energies for their own benefits. It is not only limited to men and women who are suffering from sex-related problems. In fact, almost everyone with active sex lives can benefit from tantric sex. People who are familiar with tantric sex enjoy the sex life to the fullest. It also helps break down limiting cultural inhibitions inculcated by Western ideologies, such as fear and guilt associated with sex. Tantric sex teaches us how to become familiar with our mystical nature so that our sexual boundaries expand, allowing us to enter a new realm of awareness. By embracing tantric sex, we not only improve our sexual experiences but also empower our daily lives as we can use the energies from tantric sex and channel them to our daily routines.

A revolutionary practice for couples to enhance sexuality and reach higher states of consciousness • How to make sex a conscious decision, not an accidental encounter • Discusses how slowness increases sensitivity and awakens the body's innate mechanism for ecstasy • Reveals how sexuality can be sustainable and enjoyable well into old age While fast, hot, orgasm-driven sex can bring momentary satisfaction, in the long run it can become boring and mechanical, causing many couples to lose interest and stop making time for physical intimacy. The first step to revive a waning sex life or make a healthy one more fulfilling, says author Diana Richardson, is to make sex a conscious decision rather than an accidental encounter. Focusing on eye contact, subtle sensations, and deep breathing, Diana's practice of slow sex awakens the body's innate mechanism for ecstasy, unlocking the door to extraordinary realms of sensitivity, sensuality, and higher consciousness. Exploring the healing, spiritual power of slow sex, this book offers a step-by-step guide for committed couples to transform sex into a meditative, loving union of complementary energies. It explains how slow sex increases

sensitivity and sexual vitality and how, because it creates and restores love, slow sex is loving sex. With a focus on coolness rather than heat, this practice provides couples a way to reach a shared meditative state and use it as a vehicle to achieve higher consciousness. Illustrating different positions for eye contact, deep sustained penetration, and soft penetration, this book reveals that sex truly can be sustainable and enjoyable well into old age.

A revolutionary approach to female sexuality that focuses on relaxation as the key to achieving deep orgasmic states • Explores how receptive feminine energy influences the male-female exchange • Reevaluates the role of the clitoris, breasts, and vagina in achieving orgasm • Provides ancient tantric meditations for increased sensitivity and awareness Fulfilling sex nourishes love, rejuvenates the body, and boosts mental health. Unfortunately, prevailing attitudes in the West work against the natural capacity of women to realize their sexual potential and experience deep orgasmic states. Tantric Orgasm for Women offers women a fresh look at the ecstatic bliss possible within their bodies, using knowledge and approaches from the sensually cultivated traditions of the East. Exploring Tantra from the female perspective, Diana Richardson reveals the critical role receptive feminine energy plays in allowing orgasmic states to arise. Her 20 years of tantric research and personal experience provide readers with an understanding of how the various parts of the female body may be activated to deepen ecstatic states. Readers will learn how to re-circulate orgasmic energy; why breast stimulation takes priority over vaginal attention; the difference between soft penetration and deep sustained penetration, including how to avoid premature male ejaculation; and how women can strengthen the erection response of male partners. Tantric Orgasm for Women shows how women can exert a powerful influence on their sexual experiences when they

understand the inner workings of their bodies and when they avoid adopting conventional ideas about what should be satisfying to them.

Using the tantric guidelines they have practiced for more than 25 years, Diana and Michael Richardson show men how to move beyond preconceptions of sex as a goal-oriented--and often stressful--event so they can relax into sex as a meditative union of complementary energies.

Contains everything a man needs to know in order to be a good lover, based on esoteric traditions of sexual ecstasy. • Includes practical and easy-to-follow Tantric rituals and sacred sexuality exercises for a modern lifestyle. • Uses real-life stories of couples to show the benefits achieved with the practices. • Offers an approach to lovemaking that encompasses all dimensions--physical, emotional, and spiritual. • Written by the co-creators of The Secrets of Sacred Sex video Being a good lover isn't easy. With more freedom, knowledge, and body awareness, today's woman knows better than to settle for predictable, performance-based sex. Tantric Secrets for Men offers everything a man needs to know in order to satisfy a woman's physical, emotional, and spiritual yearnings. Employing the ancient secrets of physical ecstasy, men learn to transform rote sex into passionate lovemaking, pleasure into ecstasy, and partnership into union. From the expert teachings of a committed couple practicing and teaching ecstatic sexuality in a modern-day context, men will learn how to satisfy a woman on the levels of body, heart, and soul--and how to bring themselves to new heights of ecstasy in the process. The authors draw upon time-honored tantric and Taoist practices and modern sexology that will enable couples to make love more frequently, achieve higher and prolonged states of orgasmic intensity, experience lovemaking as a sacred endeavor, and deepen loving relationships.

It's similar to excess gas in your car that you never use. If you don't use the gas, you just keep it around with you thinking it might come in handy someday. But you never know when you might run out of gas on the side of the road. In the same way, when we don't use our sexual energy, it gets stored up inside us to be used at a moment's notice. Most people aren't aware of this because they are too busy having fun with their partners. When they are alone, they can always count on their sexual energy to get them off - but all that energy will dissipate over time and eventually will need to be re-absorbed into the body in order to maintain its full potential. That means that most people eventually get tired of sex before they get to a point where they need to have a real orgasm or else they begin to lose interest in it altogether. This makes sense considering no person ever wants to be bored during sex! Are you looking for a guide to start practicing tantric sex? Then keep reading...A typical fantasy sex scene is conjured up in the mind. The setting is perfect; soft lighting, light aromas. A man may be muscle-bound, physically strong, tall and handsome, incredibly romantic, and a woman may be aesthetically beautiful, slim with perky breasts, smooth skin, and soft hair, wet and waiting. The sex itself is spontaneous and powerful. He bursts through the door and she is waiting for him in nothing but one of his work shirts. He gingerly picks her up by the waist and she wraps her legs around him as he carries her to the bedroom to make love to her for hours, but they are so impassioned that they don't make it -- and wind up ripping into each other on the staircase on the way up. A typical run-of-the-mill sex scenario between a long-term married couple may be that one

partner is stressed from a long day at work and wants to get some sexual release before heading to bed, while the other would rather just read their book in peace, go to sleep unbothered and worry about sex some other time when they are in the mood. In order to avoid conflict and disappointment, one partner gives in to the others desires and the same old sex takes place in the same old bed underneath the same old covers in the same old boring positions; eyes closed and lights off... boring! When sex becomes too boring and too routine, rather than being aroused and looking forward to pleasing and being pleased, people "give up". They wonder how much longer they have to engage in foreplay before it is okay to get to the orgasm. Sometimes people also take issues from outside the bedroom into it, maybe thinking "I'm still mad at him/her from earlier, why on Earth would I give sexual pleasure right now"? Sometimes other insecurities and issues can come into play as well. Maybe there is a problem with premature ejaculation so the other partner rarely reaches their peak, and the focus is just on "getting the job done" so they can move on to other more interesting and engaging activities (like sleep)! Either way, if the sex exists at all, it is brief, goal (orgasm) oriented and is over as quickly as possible. You will find some of the tips on Tantric Sex in the chapters of this book that include: Understanding what tantric philosophy is Meaning of love and sex for Tantra philosophy - intimacy Divine sex in Hinduism Advantages and differences with traditional sex How best to prepare your mind and body for tantric sex using techniques for foreplay, massage, and masturbation Tantra exercises

Are you looking for a guide to start practicing tantric sex? Then keep reading... A typical fantasy sex scene is conjured up in the mind. The setting is perfect; soft lighting, light aromas. A man may be muscle-bound, physically strong, tall and handsome, incredibly romantic, and a woman may be aesthetically beautiful, slim with perky breasts, smooth skin, and soft hair, wet and waiting. The sex itself is spontaneous and powerful. He bursts through the door and she is waiting for him in nothing but one of his work shirts. He gingerly picks her up by the waist and she wraps her legs around him as he carries her to the bedroom to make love to her for hours, but they are so impassioned that they don't make it -- and wind up ripping into each other on the staircase on the way up. A typical run-of-the-mill sex scenario between a long-term married couple may be that one partner is stressed from a long day at work and wants to get some sexual release before heading to bed, while the other would rather just read their book in peace, go to sleep unbothered and worry about sex some other time when they are in the mood. In order to avoid conflict

and disappointment, one partner gives in to the others desires and the same old sex takes place in the same old bed underneath the same old covers in the same old boring positions; eyes closed and lights off... boring!

When sex becomes too boring and too routine, rather than being aroused and looking forward to pleasing and being pleased, people "give up". They wonder how much longer they have to engage in foreplay before it is okay to get to the orgasm. Sometimes people also take issues from outside the bedroom into it, maybe thinking "I'm still mad at him/her from earlier, why on Earth would I give sexual pleasure right now"? Sometimes other insecurities and issues can come into play as well.

Maybe there is a problem with premature ejaculation so the other partner rarely reaches their peak, and the focus is just on "getting the job done" so they can move on to other more interesting and engaging activities (like sleep)! Either way, if the sex exists at all, it is brief, goal (orgasm) oriented and is over as quickly as possible.

You will find some of the tips on Tantric Sex in the chapters of this book that include: Understanding what tantric philosophy is Meaning of love and sex for Tantra philosophy - intimacy Divine sex in Hinduism Advantages and differences with traditional sex How best to prepare your mind and body for tantric sex using techniques for foreplay, massage, and masturbation Tantra exercises and massages for sexual fulfillment of couples Emotional and cultural consent: what it is and why it matters Reaching ecstasy and the importance of orgasm Desires Positions And Techniques Improve Tantric Sex With These Tips Considerations and facts about tantric sex

A tantric guide to discovering the hidden gifts of menopause • Explains why Tantra works for menopausal women and how their bodies are naturally entering a more tantric phase focused on creative, spiritual energy • Details tantric practices and tools to connect with the body's inner intuitive wisdom, remove the "performance pressure" of conventional sex, and set the stage for passion and pleasure to thrive both in the bedroom and beyond • Explores what to expect physically, emotionally, and spiritually, and in relationships As women, we live so closely to the body--through menstruation, pregnancy, birthing, motherhood, and then menopause. Each of these transitions changes a woman in a multitude of ways, most of which are celebrated. Yet menopause often causes women to feel despondent, as if our bodies are broken or deficient, especially when it comes to sex and intimacy. However, as tantric teachers Diana Richardson and Janet McGeever show, menopause has many hidden gifts to offer if we learn to embrace rather than suppress the changes this natural transition brings. Shining the light of tantric intelligence on menopause, the authors reveal how to explore and experience menopause in a radically positive fashion, suffused with a sense of vital

awakening and “re-wilding” of a woman’s sexuality, creativity, and spirituality. Explaining what to expect physically, emotionally, and spiritually, as well as what it means for relationships, they detail tantric practices and tools to connect with the body’s inner intuitive wisdom and heart energies, remove the “performance pressure” of conventional sex, and set the stage for passion and pleasure to thrive both in the bedroom and beyond. They explain why Tantra works for menopausal women and how their bodies are naturally entering a more tantric phase focused on creative, spiritual energy. They explore how, in Tantra, sex is practiced not for the sake of sex itself but as an instrument for going “beyond” sex, for better health, improved relationships, enhanced self-control and emotional balance, and even higher states of consciousness. They also offer many self-help practices, exercises, and meditations to reinforce a positive attitude toward menopause and overcome many of the physical and sexual problems, such as pain, dryness, loss of interest, and loss of libido. Providing a guide for women who are approaching, experiencing, or have gone through menopause, the authors show how a more informed, tantric approach to menopause allows each woman to deepen her trust in the perfect functioning of the female body, embrace her natural sexual response, and reconnect with her inner self.

Diana Richardson, an acclaimed authority on human sexuality, began a personal enquiry into the union of sex and meditation (the essence of tantra) over twenty five years ago while living in India. Through these innocent steps and motivated by simple curiosity, she gained deep insights into the spiritual and generative implications of sex that lie beyond its reproductive aspect. She stresses that it is the how of sex, and not the what of sex, that determines the difference. With additional information we can begin to honor the innate sexual intelligence that exists in our bodies as a subtle electro-magnetic reality. On this fine and delicate level man and woman function as equal yet opposite forces that are highly complimentary. Embracing this polarity potential can elevate and transform sex into an empowering and spiritual act, an experience that creates and sustains love, peace and harmony. Her simple, down to earth and practical approach as presented in her books has created a wave of positive resonance and response from readers worldwide.

Do you want to learn how to revitalize your sexual relationship and make your wishes come true.? Do you want a complete tantric sex guide with stories and sex positions for men, women and beginners? If yes, then keep reading...We have sex; we make love for our metamorphosis, to evolve. And we can evolve only if we live the sexual desire to the full, as a transforming force, which brings us to our individual and couple realization. Through sexuality our soul vibrates, lights up and our being gives birth to the unknown I who lives within us. Sexuality, actually, is Aphrodite's and his son Eros' gift to men. Having sex is good for love and, therefore, you have to do it always better, make it more appetizing and interesting. For example, by experimenting with various sexual positions, we can stimulate the sexual nerve centers and enhance our own and partner's eroticism. Of course, the imagination and creativity of the couple's members are indispensable, as is the

predisposition of the couple to experimentation and participation. Having good sex, in fact, rewards individuals, makes them more creative, raises their mood and psycho physical well-being, because sex is - as already mentioned - the most important factor in a couple's life. Through sexuality, as well as the choice of preferred sexual positions, the couple expresses their personality, their culture, the type of relationship that exists between their members, marking their own and others' evolution. If you are a beginner, sex can make you feel overwhelmed, especially if you are clueless about simple positions. Therefore, you should make the first step of learning the most relaxed positions that you could try out with your partner and get the best out of it. Instead "Tantric sex" is a way of increasing the passion in your sex. Tantric sex helps you to increase the intimacy and comfort levels that you share with your partner. It also helps you to derive enhanced satisfaction and pleasure from sex. Tantric sex is a much older concept than what people believe it to be. It is believed to be a very old Hindu practice. It helps a person to tune into his own energy centers and also helps him to align his energy centers with his partner's energy centers. There are no hard and fast rules for tantric sex. There are a few techniques and guidelines that are enough to make you understand the basics of tantric sex. Tantric sex will help you get rest at a very deep level. When your body is rested,
